

Design line

Design diversity with class

„There is no doubt that many people have these **competencies**, but few of these are **competent** enough to make full use of them.“

wedi – Systematic building and renovation

As a master tiler, Helmut Wedi had a major target in front of him when he founded wedi GmbH in 1983: develop high-quality and practical solutions for craftsmen which provide true added value in day-to-day work. Originating from this target, a philosophy has been developed over the course of the past 29 years which is now being pursued in the second generation by Stephan Wedi.

Nowadays, building and renovation means much more than just well-known wedi building boards. With the business fields of design elements, customised building and building systems, together with a wide range of services in the sales support and application technology sectors, wedi has become a premium brand in the implementation of bathroom and wellness areas.

Only real with a
blue core

wedi building board systems

wedi building boards have a blue core made from CFC-free extruded polystyrene rigid foam. This makes the wedi building board an ideal basis for any type of plaster and tile. wedi building boards can be applied to practically any substrate, are waterproof, insulating, versatile, light and robust.

What does wedi INSIDE offer?

The principle of wedi INSIDE is simple: high-quality ceramic covers require a substrate that is 100% secure.

That's why craftsmen have put their faith in the unique wedi quality for decades, especially for substrate underneath tiles. 100% waterproof and 100% secure – signed, sealed, and guaranteed by wedi.

- 1** The blue XPS core is 100% waterproof and remains fully functional even after possible damage.
- 2** abP*-tested: building board butt joints can be sealed 100% simply by using wedi 610. As no other seal is necessary, craftsmen benefit from increased security accompanied by a shorter tiling time
- 3** Cement based substrate forms an extremely strong adhesive base thanks to embedded fibres.
- 4** All building board systems have great heat insulation properties, save energy costs and provide long-term protection against mould.

* abP (Allgemeines bauaufsichtliches Prüfzeugnis – German General Technical Approval) in combination with tile and slab coverings, even in high-load areas.

Perfect tile backboard with real added value

Security through complete, all-round system

Saves up to 50% processing time

Completely dimensionally accurate

High stability

Very low weight

Protection against mould and fungi

Over 29 years of practical experience

Thermally-insulating

wedi Fundo design showers

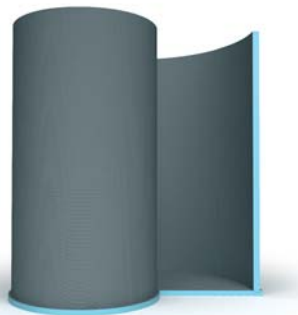

„The inspiration to let your creative ideas take shape.“

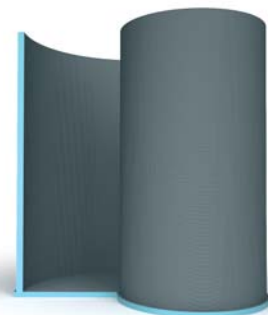

Today, floor-level showers are practically a must-have in all public wellness facilities as they combine aesthetic requirements with a high level of functionality. The Fundo design concept unites creative lines with natural shapes and offers wall and floor elements to match the design series Trollo and Nautilo – either with or without supply channels.

wedi Fundo floor elements

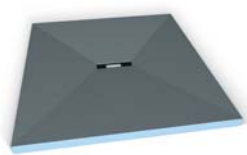

„The guarantee that promises you security from the ground up.“

Together with shower walls, the wedi Fundo design series offers countless floor elements for the creation of accessible showers. Thanks to a low installation height and the high level of security, these elements are perfectly suited to renovations and to new constructions. Furthermore, the variety of forms and formats allow individual realisation regardless of the space available.

The full assembly instructions for the wedi Fundo can be found at www.wedi.eu

wedi Fundo

wedi Fundo design showers consist of a floor element and matching partition walls. Just like the established wedi building board, these elements have a waterproof blue core and are also equipped with a pre-assembled waterproof floor drain (either horizontal or vertical) and a predefined slope. The design variations with the "libero" suffix have reinforced rear elements for the application of fittings and taps. This means that the showers can also be free standing. The installation instructions are illustrated as follows using the Fundo Trollo libero as an example.

Fundo *Trollo* *libero* | Design shower

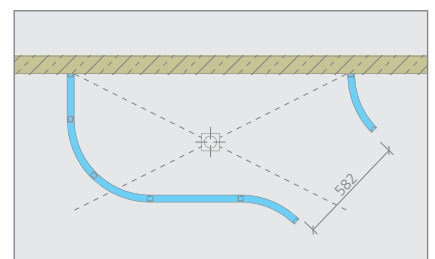

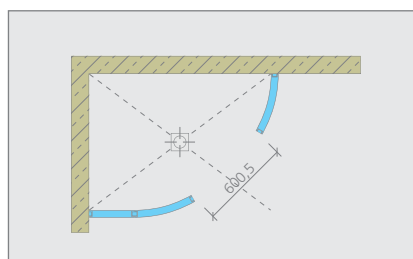

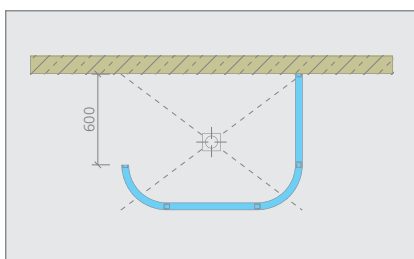

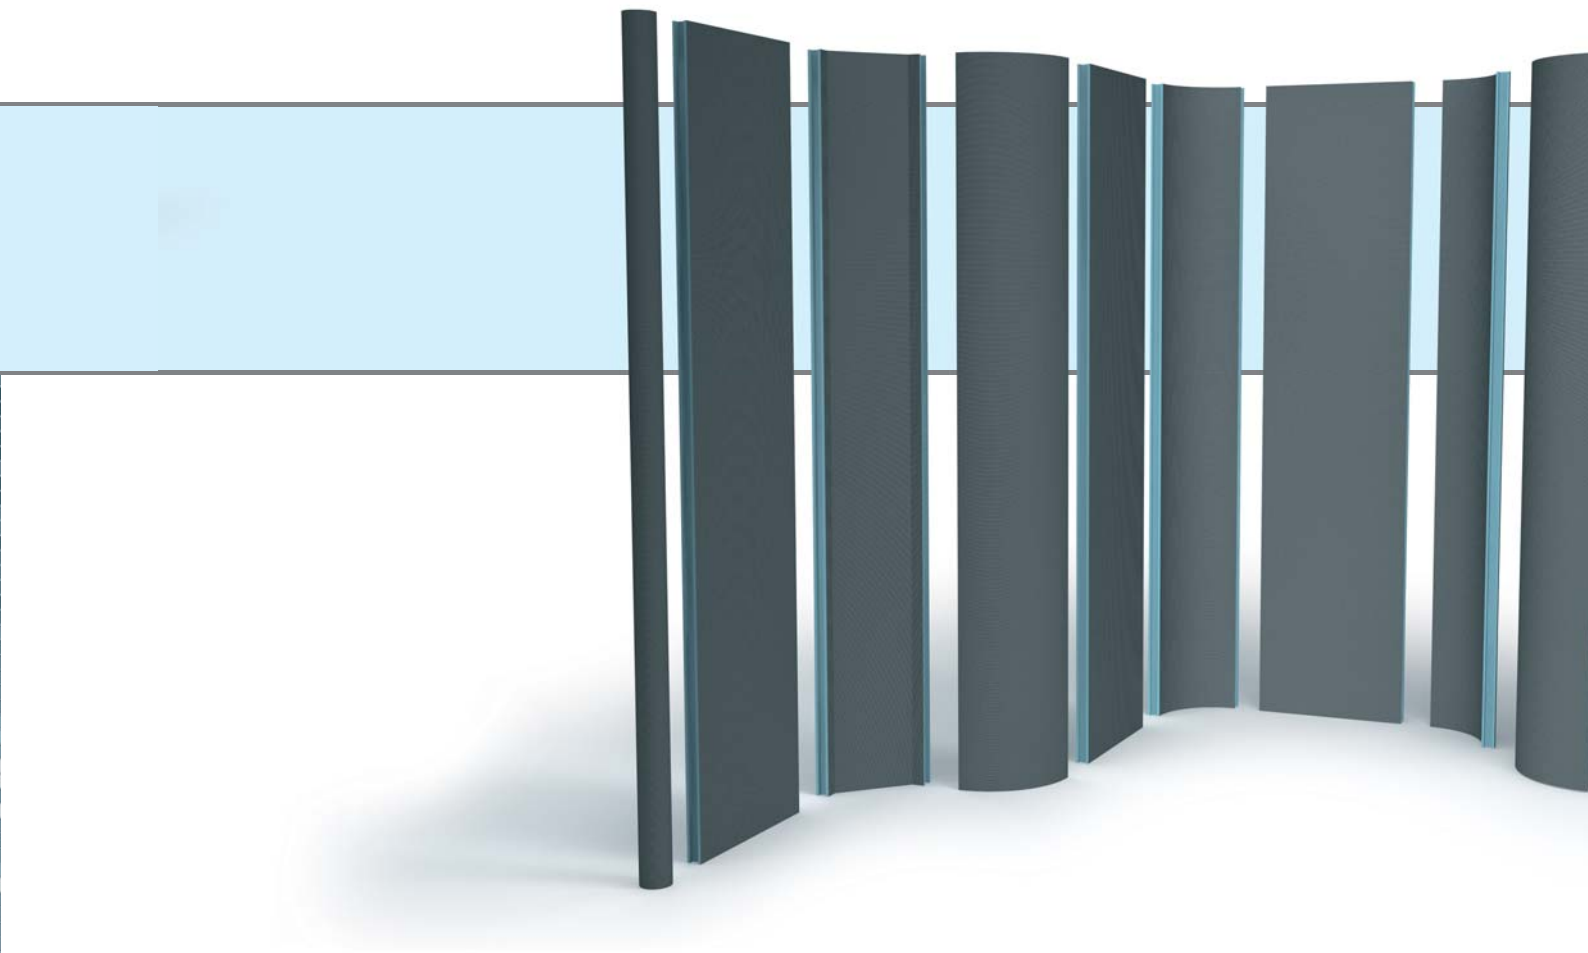

wedi Moltoromo

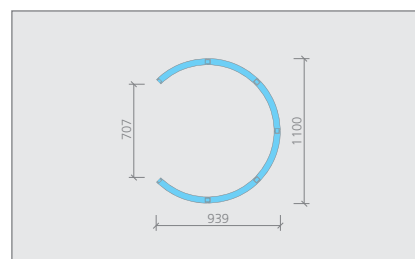

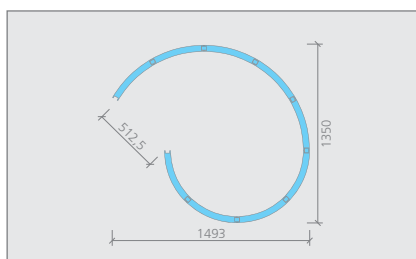

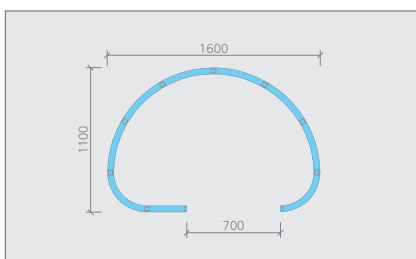

Examples of application of wedi Moltoromo

„The freedom to be able to realise any kind of unique shape with ease.“

The wedi Moltoromo system lets you create diverse full effect wall shapes for different bathroom and wellness applications. Round shapes, square solutions or, for example, serpentine lines can be easily and quickly installed. And the possibilities in terms of tiles or plastering are endless.

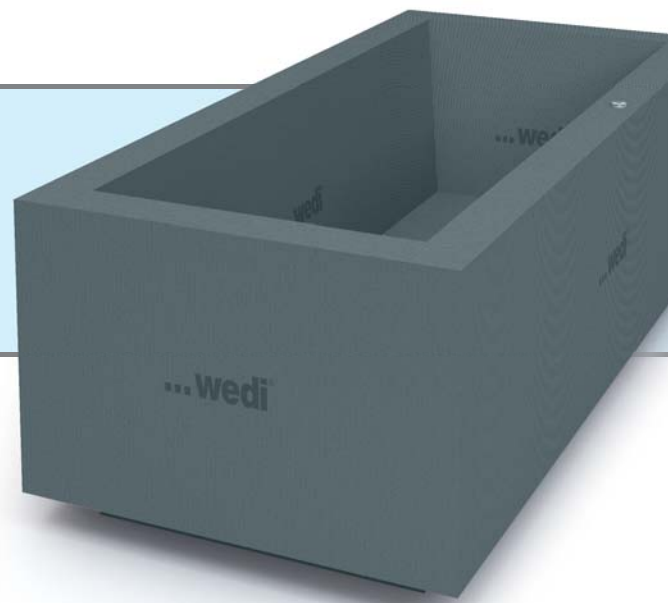

wedi Sanbath bathroom furn

iture

„Design that provides you with unique functionality at the same time.“

White wash basins, white bathtubs, white showers ... enough of all that! The wedi Sanbath design series provides the simplest way to introduce new shapes and colours into the bathroom. Whether we are talking about simple elegance, creative design shapes or selected colour accents, wedi Sanbath turns your bathroom into a living room and the wash areas into real furniture.

found at www.wedi.eu

wedi Sanbath

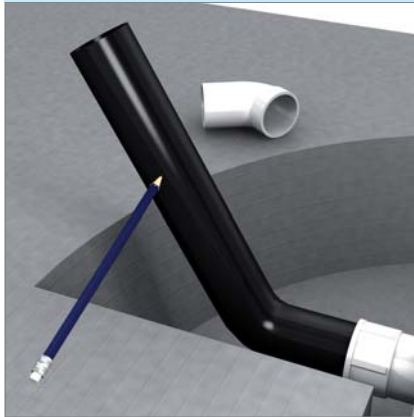

wedi Sanbath Cube stands out through its clear lines and sleek elegance. wedi Sanbath Wave is setting new trends in the wellness sector with its wavy forms. All elements from the Sanbath series are ready to assemble and have the same waterproof core as the established wedi building boards. After setting up and connecting the elements, they can then be tiled straight away.

wedi Sanoasa Multicentre

„A wellness oasis in your own home.“

The Sanoasa Multicentre offers pretty much everything which turns a normal shower into a complete oasis of well being. Massage showers with side jets, purifying steam baths to promote your circulation or relaxing light displays with adjustable colours are just as much a part of the equipment as the different designs are which can blend individually into the room concept.

Shower panels/raindance showers

Whether you're after exclusive shower panels or high-quality raindance showers, all the wedi Multicentres can be individually equipped to suit your requirements. Experience relaxation that's individual to you.

Fibre glass cable (50 fibres)

Featuring 50 light fibres in a colour that's individual to you, this accessory (which is available as an option) is a must for all wellness lovers. Light up your Multicentre.

Stainless steel steam outlet nozzles

These accessories, designed in high-quality stainless steel, combine puristic design and modern functionality. They're zero-compromise, right down to the smallest detail.

LED technology

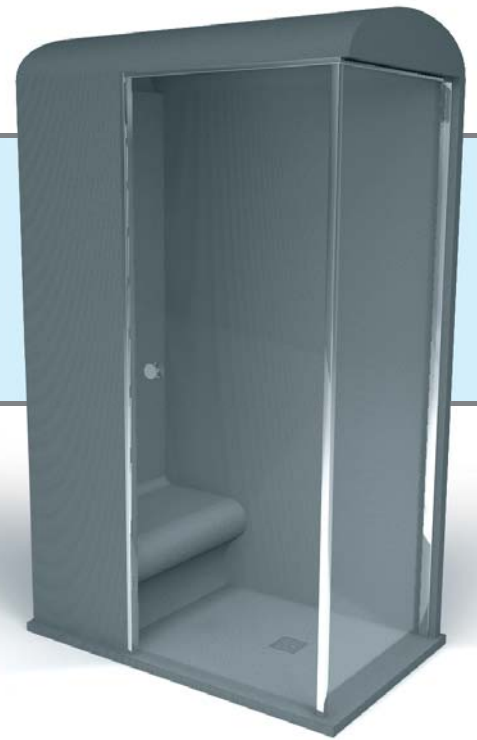

Light has always been an integral part of feeling good. The LED technology, which is available as an extra feature, is not only an eye-catcher; it allows you to design your surroundings completely in line with your feelings and your requirements. Seeing is feeling.

wedi Sanoasa Vario

„The individualism which gives your desires free reign.“

wedi Vario cabins are special shower cubicles whose diverse shapes, sizes and equipment options find their niche in any type of bathroom. The range offers the choice of positioning in the corner or to a wall plus different roof configurations. The Vario cabins are supplied without the technical features of the Sanoasa Multicentre range allowing the client to select and equip the cabins to their individual requirements.

Bench heating

All tileable seating elements of the wedi Vario cabins can be equipped with seat heating as an option. Revolutionary feel-good warmth.

Epoxy resin coating

The epoxy resin coatings of your wedi Vario cabins can, as an option, be designed in line with the RAL colour system. Let your imagination run wild and create a space that suits your requirements and your room design.

Wall heating

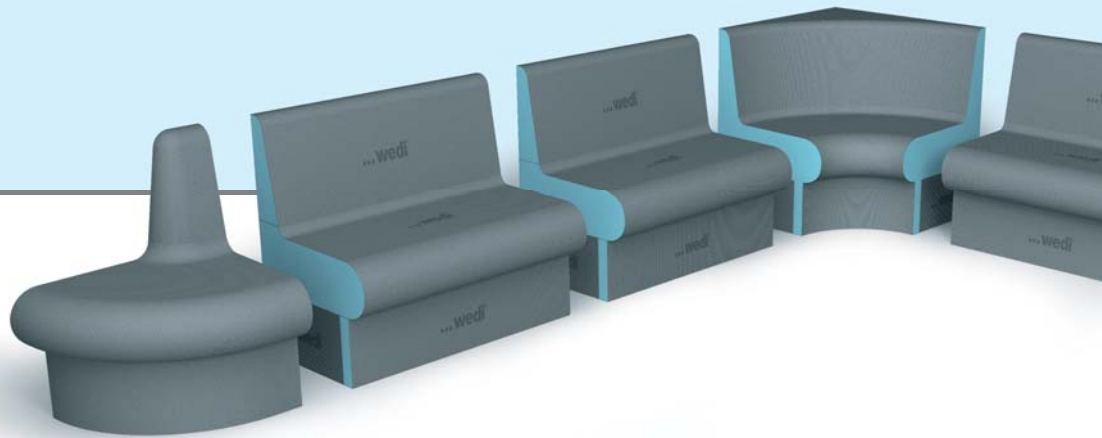

We are also happy to equip the wall surfaces of your wedi Vario cabins with wall heating on request. Don't do things by half in your wellness oasis.

wedi Sanoasa benches

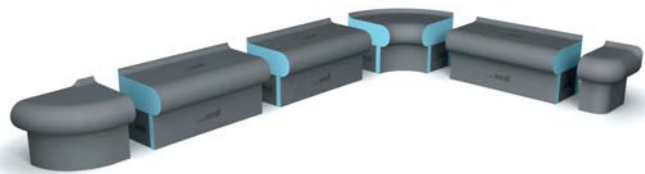

„The simplicity of creating wellness areas with a modular system.“

Sanoasa benches are available in so many different designs, meaning that they can be built into almost any seating combination. Whether we are talking about benches, corner constructions or clean end solutions, once individually tiled, they set the scene in all bathrooms and wellness areas.

wedi Sanoasa loungers

„Versatile forms which create a visible, pleasant atmosphere.“

The Sanoasa loungers stand out due to their original and unique shapes. They set individual accents in wellness areas in a variety of styles and designs and can be harmoniously integrated into the total room concept. Colours and formats can be combined to produce unique designs. Combined with an integrated heating system (hot water heating or electric heating) so that there is nothing to prevent total relaxation.
